Mr. William K. Reilly, Administrator
Environmental Protection Agency
401 M St. SW
Washington, D.C. 20460

Dear Mr. Reilly:

I understand that your agency is making a permitting determination on a gasoline additive called HiTEC 3000.

My brief examination of materials analyzing this additive suggests that it could reduce undesirable automobile emissions, and also reduce the use of crude oil.

The possibility of either of these results, and their importance to my state, direct your immediate and thorough analysis and subsequent permitting of HiTEC 3000, should you find it safe.

I anticipate your attention and thank you for this consideration.

Sincerely,

A handwritten signature in cursive script that reads "Joe Quinn".
